April 22

Celebrate Earth Day with us! There are so many things you can do to celebrate and help the earth such as planting in your yard or garden, riding your bike, using reusable bags when shopping, drinking from refillable water bottles, and much more!

Show appreciation for the natural beauty of our planet by taking a picture of something you did to help our planet on April 22. Send your photo to egilroy@carypark.com. Your photos will be featured on the Cary Park District Facebook page.
