There was no business under Direction Items.

Under Discussion/Information Items, Cherveney, Jones & Mayer provided information related to Recreation Program & Facilities Statistical Data. Mayer walked the Committee through the information in general, indicating how the data could be interpreted and utilized. The intent was to discover what pieces of information the Board desired to receive and what pieces were not relevant to their decision-making responsibilities.

Commissioners responded that the information was valued and that they liked the information. They indicated that they prefer to have less time involved by staff in transposing numbers, but felt it was important to receive the information. They would like to see year-to-year comparisons where possible. Staff noted that the data format will probably continue to change over time as they continue to get better data to include in the report.

There was no need for closed session.
